

Neiman Large Cap Value Fund

SEMI-ANNUAL REPORT

September 30, 2010

NEIMAN LARGE CAP VALUE FUND (Unaudited)

Neiman Large Cap Value Fund by Sectors (as a percentage of Net Assets) (Unaudited)

PERFORMANCE INFORMATION

AVERAGE ANNUAL TOTAL RATE OF RETURN (%) FOR THE PERIODS ENDED SEPTEMBER 30, 2010.

9/30/10 NAV \$19.64

	1 Year ^(A)	3 Years ^(A)	5 Years ^(A)	Since Inception ^(A)
Neiman Large Cap Value Fund	10.60%	(2.06)%	3.89%	4.44%
S&P 500 ^(B)	10.18%	(7.13)%	0.64%	6.13%

^(A) 1 Year, 3 Years, 5 Years and Since Inception returns include change in share prices and in each case includes reinvestment of any dividends and capital gain distributions. The Inception date of the Neiman Large Cap Value Fund was April 1, 2003.

^(B)The S&P 500 is a broad market-weighted average dominated by blue-chip stocks and is an unmanaged group of stocks whose composition is different from the Fund.

PAST PERFORMANCE DOES NOT GUARANTEE FUTURE RESULTS. INVESTMENT RETURN AND PRINCIPAL VALUE WILL FLUCTUATE SO THAT SHARES, WHEN REDEEMED, MAY BE WORTH MORE OR LESS THAN THEIR ORIGINAL COST. RETURNS DO NOT REFLECT THE DEDUCTION OF TAXES THAT A SHAREHOLDER WOULD PAY ON FUND DISTRIBUTIONS OR THE REDEMPTION OF FUND SHARES. CURRENT PERFORMANCE MAY BE LOWER OR HIGHER THAN THE PERFORMANCE DATA QUOTED. TO OBTAIN PERFORMANCE DATA CURRENT TO THE MOST RECENT MONTH END, PLEASE CALL 1-877-385-2720.

Availability of Quarterly Schedule of Investments (Unaudited)

The Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q filings are available on the SEC's Web site at <http://www.sec.gov>. Each Form N-Q filed by the Fund may also be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.

Proxy Voting Guidelines (Unaudited)

Neiman Funds Management LLC, the Fund's Adviser, is responsible for exercising the voting rights associated with the securities held by the Fund. A description of the policies and procedures used by the Adviser in fulfilling this responsibility is available without charge on the Fund's website at www.neimanfunds.com or by calling our toll free number (1-877-385-2720). It is also included in the Fund's Statement of Additional Information, which is available on the Securities and Exchange Commission's website at <http://www.sec.gov>.

Information regarding how the Fund voted proxies, Form N-PX, relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge, upon request, by calling our toll free number (1-877-385-2720). This information is also available on the Securities and Exchange Commission's website at <http://www.sec.gov>.

Disclosure of Expenses (Unaudited)

Shareholders of this Fund incur ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs of investing in the Fund and to compare these costs with similar costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested in the Fund on April 1, 2010 and held through September 30, 2010.

The first line of the table below provides information about actual account values and actual expenses. To estimate the expenses a shareholder paid during the period covered by this report, shareholders can divide their account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6) and then multiply the result by the number in the first line under the heading entitled "Expenses Paid During the Period."

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses paid by a shareholder for the period. You may use this information to compare the ongoing costs of investing in this Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in other funds' shareholder reports.

	Beginning Account Value April 1, 2010	Ending Account Value September 30, 2010	Expenses Paid During the Period* April 1, 2010 to September 30, 2010
Actual	\$1,000.00	\$1,023.39	\$8.88
Hypothetical (5% annual return before expenses)	\$1,000.00	\$1,016.29	\$8.85

* Expenses are equal to the Fund's annualized expense ratio of 1.75%, multiplied by the average account value over the period, multiplied by 183/365 (to reflect the one-half year period.)

NOTES TO THE FINANCIAL STATEMENTS
NEIMAN LARGE CAP VALUE FUND

September 30, 2010

(UNAUDITED)

1.) ORGANIZATION:

Neiman Large Cap Value Fund (the "Fund") is a non-diversified series of the Neiman Funds (the "Trust"), an open-end management investment company. The Trust was organized in Ohio as a business trust on January 3, 2003 and may offer shares of beneficial interest in a number of separate series, each series representing a distinct fund with its own investment objectives and policies. At present, there are two series authorized by the Trust. Neiman Funds Management LLC is the advisor to the Fund (the "Adviser"). The Fund commenced operations on April 1, 2003. The Fund's investment objective is to seek long-term capital appreciation. Significant accounting policies of the Fund are presented below:

2.) SIGNIFICANT ACCOUNTING POLICIES:

SECURITY VALUATION:

All investments in securities are recorded at their estimated fair value, as described in note 3.

OPTION WRITING:

When the Fund writes an option, an amount equal to the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current fair value of the option written. Premiums received from writing options that expire unexercised are treated by the Fund on the expiration date as realized gains from options written. The difference between the premium and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or, if the premium is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security or currency in determining whether the Fund has realized a gain or a loss. If a put option is exercised, the premium reduces the cost basis of the securities purchased by the Fund. The Fund as writer of an option bears the market risk of an unfavorable change in the price of the security underlying the written option.

FEDERAL INCOME TAXES:

The Fund's policy is to continue to comply with the requirements of the Internal Revenue Code that are applicable to regulated investment companies and to distribute all of its taxable income to shareholders. Therefore, no federal income tax provision is required. It is the Fund's policy to distribute annually, prior to the end of the calendar year, dividends sufficient to satisfy excise tax requirements of the Internal Revenue Code. This Internal Revenue Code requirement may cause an excess of distributions over the book year-end accumulated income. In addition, it is the Fund's policy to distribute annually, after the end of the fiscal year, any remaining net investment income and net realized capital gains.

The Fund recognizes the tax benefits of certain tax positions only where the position is "more likely than not" to be sustained assuming examination by tax authorities. Management has analyzed the Fund's tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years (2007 - 2009), or expected to be taken in the Fund's 2010 tax returns. The Fund identifies its major tax jurisdictions as U.S. Federal and State tax authorities; however the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

DISTRIBUTIONS TO SHAREHOLDERS:

Distributions to shareholders, which are determined in accordance with income tax regulations, are recorded on the ex-dividend date.

USE OF ESTIMATES:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

OTHER:

The Fund records security transactions based on a trade date. Dividend income is recognized on the ex-dividend date, and interest income is recognized on an accrual basis. Discounts and pre-

Notes to the Financial Statements (Unaudited) - continued

miums on securities purchases are amortized over the lives of the respective securities. Withholding taxes on foreign dividends have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and rates.

3.) SECURITIES VALUATIONS

The Fund utilizes various methods to measure the fair value of most of its investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 - Inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 - Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuating the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

FAIR VALUE MEASUREMENTS

A description of the valuation techniques applied to the Fund's major categories of assets and liabilities measured at fair value on a recurring basis follows.

Equity securities (common stock including exchange traded funds). Equity securities that are traded on any exchange or on the NASDAQ over-the-counter market are valued at the last quoted sale price. Lacking a last sale price, a long security is valued at its last bid price except when, in the Adviser's opinion, the last bid price does not accurately reflect the current value of the long security. To the extent these securities are actively traded and valuation adjustments are not applied, they are classified in level 1 of the fair value hierarchy. When market quotations are not readily available, when the Adviser determines the last bid price does not accurately reflect the current value or when restricted securities are being valued, such securities are valued as determined in good faith by the Adviser, in conformity with guidelines adopted by and subject to review of the Board of Trustees (the "Trustees") and are categorized in level 2 or level 3, when appropriate.

Money markets. Money market securities are valued at a net asset value of \$1.00 and are classified in level 1 of the fair value hierarchy.

Short positions (including options written). Short positions that are traded on any exchange or on the NASDAQ over-the-counter market are valued at the last quoted sale price. To the extent these short positions are actively traded and valuation adjustments are not applied, they are classified in level 1 of the fair value hierarchy. Lacking a last sale price, a short position, including a written option, is valued at its last ask price except when, in the Adviser's opinion, the last ask price does not accurately reflect the current value of the short position. When an ask price is used for valuation or when the security is not actively traded, those securities are generally categorized in level 2 of the fair value hierarchy.

In accordance with the Trust's good faith pricing guidelines, the Adviser is required to consider all appropriate factors relevant to the value of securities for which it has determined other pricing

Notes to the Financial Statements (Unaudited) - continued

sources are not available or reliable as described above. There is no single standard for determining fair value controls, since fair value depends upon the circumstances of each individual case. As a general principle, the current fair value of an issue of securities being valued by the Adviser would appear to be the amount which the owner might reasonably expect to receive for them upon their current sale. Methods which are in accordance with this principle may, for example, be based on (i) a multiple of earnings; (ii) a discount from market of a similar freely traded security (including a derivative security or a basket of securities traded on other markets, exchanges or among dealers); or (iii) yield to maturity with respect to debt issues, or a combination of these and other methods.

The following table summarizes the inputs used to value the Fund's assets and liabilities measured at fair value as of September 30, 2010:

<u>Valuation Inputs of Assets</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Common Stock	\$12,210,038	\$0	\$0	\$12,210,038
Exchange Traded Funds	215,820	0	0	215,820
Money Market Funds	<u>2,733,320</u>	<u>0</u>	<u>0</u>	<u>2,733,320</u>
Total	\$15,159,178	\$0	\$0	\$15,159,178

<u>Valuation Inputs of Liabilities</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Written Options	\$0	\$122,807	\$0	\$122,807
Total	\$0	\$122,807	\$0	\$122,807

Refer to the Fund's Schedule of Investments for a listing of securities by industry. The Fund did not hold any Level 3 assets during the six month period ended September 30, 2010.

4.) INVESTMENT ADVISORY AGREEMENT

The Fund has entered into an Investment Advisory Agreement with Neiman Funds Management LLC. Under the terms of the Investment Advisory Agreement, the Adviser manages the investment portfolio of the Fund, subject to policies adopted by the Trust's Trustees. The Adviser, at its own expense and without reimbursement from the Trust, furnishes office space and all necessary office facilities, equipment and executive personnel necessary for managing the assets of the Fund. The Adviser also pays the salaries and fees of all of its officers and employees that serve as officers and trustees of the Trust.

The annual management fee is 1.00% of the Fund's average daily net assets. For the six month period ended September 30, 2010, the Adviser earned management fees totaling \$69,563 before the waiver of management fees and reimbursement of expenses described below. The Adviser has contractually agreed to waive management fees and reimburse expenses to the extent necessary to maintain total annual operating expenses of the Fund (excluding brokerage fees and commissions, interest and other borrowing expenses, taxes, indirect expenses (such as expenses of other investment companies in which the Fund invests) and extraordinary expenses) at 1.75% of the Fund's average daily net assets through July 31, 2012. For the six month period ended September 30, 2010, the Adviser waived fees and/or reimbursed expenses totaling \$23,542 to the Fund. The Fund owed the Adviser \$9,061 at September 30, 2010. Certain officers and directors of the Adviser are also officers and/or Trustees of the Trust.

5.) CAPITAL STOCK

The Trust is authorized to issue an unlimited number of shares without par value. Paid in capital at September 30, 2010 was \$15,179,064, representing 773,783 shares outstanding.

6.) INVESTMENT TRANSACTIONS

For the six month period ended September 30, 2010, purchases and sales of investment securities other than U.S. Government obligations and short-term investments aggregated \$4,594,048 and \$1,067,128, respectively. Purchases and sales of U.S. Government obligations aggregated \$0 and \$0, respectively.

For Federal income tax purposes, the cost of securities owned at September 30, 2010 was \$13,176,072, and premiums received from options written was \$95,731.

At September 30, 2010, the composition of gross unrealized appreciation (the excess of value over tax cost) and depreciation (the excess of tax cost over value) of investments (including open positions in written options) on a tax basis was as follows:

Notes to the Financial Statements (Unaudited) - continued

<u>Appreciation</u> \$2,100,204	<u>(Depreciation)</u> (\$144,174)	<u>Net Appreciation (Depreciation)</u> \$1,956,030
------------------------------------	--------------------------------------	---

There were no differences between book basis and tax basis unrealized appreciation.

7.) WRITTEN OPTIONS

As of September 30, 2010, Fund portfolio securities valued at \$3,511,063 were held by the Fund as collateral for options written by the Fund.

Transactions in written options during the six month period ended September 30, 2010 were as follows:

	<u>Number of Contracts</u>	<u>Premiums Received</u>
Options outstanding at March 31, 2010	615	\$108,050
Options written	833	\$126,598
Options terminated in closing purchase transactions	0	\$0
Options expired	(635)	(\$114,792)
Options exercised	<u>(170)</u>	<u>(\$24,125)</u>
Options outstanding at September 30, 2010	<u>643</u>	<u>\$95,731</u>

The location on the statement of assets and liabilities of the Fund's derivative positions, which are not accounted for as hedging instruments under GAAP, is as follows:

Call options written	<u>Liability Derivatives</u> (\$122,807)
----------------------	---

Realized and unrealized gains and losses on derivatives contracts entered into during the six month period ended September 30, 2010 by the Fund are recorded in the following locations in the Statement of Operations:

<u>Location</u>	<u>Realized Gain/(Loss)</u>	<u>Location</u>	<u>Unrealized Gain/(Loss)</u>
Call Options Written	\$114,633	Change In Unrealized Appreciation/(Depreciation) on Options Written	(\$9,531)
Realized Gain (Loss) on Options Written			

The selling of covered call options may tend to reduce volatility of the Fund because the premiums received from selling the options will reduce any losses on the underlying securities, but only by the amount of the premiums. However, selling the options may also limit the Fund's gain on the underlying securities. Written call options expose the Fund to minimal counterparty risk since they are exchange-traded and the exchange's clearing house guarantees the options against default.

8.) DISTRIBUTIONS TO SHAREHOLDERS

There were distributions paid on June 29, 2010 of which \$0.0728 per share was paid from net investment income.

The tax character of distributions paid during the six month period ended September 30, 2010 and the fiscal year ended March 31, 2010, respectively, were as follows:

Distributions paid from:

	<u>Six Months ended September 30, 2010</u>	<u>Year ended March 31, 2010</u>
Ordinary Income:	\$ 53,347	\$ 86,547
Short-term Capital Gain:	0	0
Long-term Capital Gain:	<u>0</u>	<u>0</u>
	<u>\$ 53,347</u>	<u>\$ 86,547</u>

As of September 30, 2010 there were no differences between book basis and tax basis.

10.) LOSS CARRYFORWARDS

At March 31, 2010 the Fund had available for federal tax purposes an unused capital loss carry-forward of \$1,912,466, of which \$1,353,492 expires in 2017 and \$558,974 expires in 2018. Capital loss carryforwards are available to offset future realized capital gains. To the extent that these carryforwards are used to offset future capital gains, it is probable that the amount that is offset will not be distributed to shareholders.
