

Neiman Funds

Neiman Tactical Income Fund

Supplement dated February 20, 2018

To Prospectus dated August 1, 2017

The Board of Trustees of Neiman Funds (the “Trust”) has determined, based primarily upon the recommendations of Neiman Funds Management LLC, the investment adviser to the Neiman Tactical Income Fund (the “Fund”), to close the Fund and provide for its orderly dissolution. Accordingly, the Trustees have authorized the officers of the Trust to take all appropriate actions necessary for the liquidation of the Fund on or about March 16, 2018. Upon the date of liquidation, those shareholders remaining in the Fund will have their shares redeemed and the proceeds will be distributed as directed. Neiman Funds Management LLC has contractually agreed to reimburse the Fund to the extent necessary to ensure that the Fund’s total annual operating expenses do not exceed 1.45% of the Fund’s average daily net assets. This reimbursement arrangement will continue through the date of liquidation.

As a result of these developments, the Fund is closed to new investors. While undergoing an orderly liquidation, the Fund will invest in cash and cash equivalents and will not be pursuing its investment objective.

IMPORTANT INFORMATION FOR RETIREMENT PLAN INVESTORS

If you are a retirement plan investor, you should consult your tax advisor regarding the consequences of any redemption of Fund shares. If you receive a distribution from an Individual Retirement Account or a Simplified Employee Pension (SEP) IRA, you must roll the proceeds into another Individual Retirement Account within sixty (60) days of the date of the distribution in order to avoid having to include the distribution in your taxable income for the year. If you receive a distribution from a 403(b)(7) Custodian Account (Tax-Sheltered account) or a Keogh Account, you must roll the distribution into a similar type of retirement plan within sixty (60) days in order to avoid disqualification of your plan and the severe tax consequences that it can bring. If you are the trustee of a Qualified Retirement Plan, you may reinvest the money in any way permitted by the plan and trust agreement.

This supplement and the prospectus dated August 1, 2017 provide the information an investor ought to know and should be retained for future reference. A Statement of Additional Information has been filed with the Securities and Exchange Commission dated August 1, 2017, which is incorporated herein by reference and can be obtained without charge by calling 1-877-385-2720.

Neiman Funds

Neiman Tactical Income Fund Class A Shares (NTAFX)

For Investors Seeking Total Return With Capital Preservation as a Secondary Objective.

Prospectus

August 1, 2017

As with all mutual funds, the Securities and Exchange Commission has not approved or disapproved of these securities, nor has the Commission determined that this Prospectus is complete or accurate. Any representation to the contrary is a criminal offense.

Summary Section

Investment Objective

- The Neiman Tactical Income Fund's (the "Fund") primary objective is total return with capital preservation as a secondary objective.

Fees and Expenses of the Fund

The following table describes the expenses and fees that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts if you and your family invest, or agree to invest in the future, at least \$50,000 in the Fund. More information about these and other discounts is available from your financial professional and in "Sales Charges" on page 15 of the Fund's prospectus and "Shares of the Fund" on page 17 of the Fund's statement of additional information.

Shareholder Fees (fees paid directly from your investment)	Class A Shares
Maximum Sales Charge (Load) Imposed on Purchases (as percentage of offering price)	5.75%
Maximum Deferred Sales Charge (Load) (as percentage of lower of purchase price and current NAV)	None ^(a)
Maximum Sales Charge (Load) Imposed on Reinvested Dividends	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	1.00%
Distribution and Service (12b-1) Fees	0.25%
Other Expenses	0.76%
Acquired Fund Fees and Expenses ^(b)	<u>0.41%</u>
Total Annual Fund Operating Expenses	2.42%
Fee Waiver/Expense Reimbursement ^(c)	<u>(0.56%)</u>
Total Annual Fund Operating Expenses After Fee Waiver / Expense Reimbursement	1.86%

^(a)Investments of \$1,000,000 or more in Class A shares that qualify for a full waiver of the sales charge imposed on purchases may be subject to a maximum deferred sales charge of 1.00% of the amount invested if these shares are redeemed within 18 months of purchase.

^(b)The Annual Fund Operating Expenses in this fee table will not correlate to the expense ratio in the Fund's financial highlights because the financial highlights include only the direct operating expenses incurred by the Fund, not the indirect costs of investing in Acquired Funds.

^(c)The adviser has contractually agreed to waive management fees and reimburse expenses to the extent necessary to maintain total annual operating expenses of the Fund (excluding brokerage fees and commissions, interest and other borrowing expenses, taxes, indirect expenses (such as expenses of other investment companies in which the Fund invests) and extraordinary expenses) at 1.45% of its average daily net assets for Class A Shares through July 31, 2018. The addition of certain non-waivable and excluded expenses may cause the Fund's total annual fund operating expenses after waivers and reimbursements to exceed the maximum total annual fund operating expenses agreed to by the adviser. The fee waiver will automatically terminate on July 31, 2018 unless it is renewed by the adviser. The adviser may not terminate the fee waiver or expense reimbursement before July 31, 2018.

Expense Example

The following example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% annual return each year and that the Fund's operating expenses remain the same each year. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	One Year	Three Years	Five Years	Ten Years
Class A Shares	\$753	\$1,236	\$1,744	\$3,133

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 44.53% of the average value of its portfolio.

The Principal Investment Strategy of the Fund

The Fund's investment sub-adviser, Absolute Capital Management, LLC (the "Sub-Adviser"), seeks to achieve the Fund's primary investment objective by investing primarily in a portfolio of open-end investment companies ("mutual funds") and/or Exchange-Traded Funds ("ETFs") that hold fixed income securities. The mutual funds and ETFs are considered the Fund's underlying funds ("underlying funds"). Under normal circumstances, the primary asset class for achieving the Fund's total return objective is low-rated corporate bonds, or "high yield bonds" / "junk bonds." The Sub-Adviser defines high yield bonds as those rated lower than Baa3 by Moody's Investors Service ("Moody's") or lower than BBB- by Standard and Poor's Rating Group ("S&P"), or if unrated, determined by the Sub-Adviser to be of similar credit quality. The Sub-Adviser is unconstrained in terms of the underlying mutual fund and/or ETF's portfolio maturity, credit rating, issuer, country, or currency. The Sub-Adviser invests the Fund's assets in a manner consistent with the primary investment strategy when it believes that the market environment in terms of the economic cycle, market cycle, and interest rate cycle, is conducive to investing in high yield bonds. Tactical decisions are made to move out of high yield bonds for one of three reasons:

- Economic and trend analysis identify more attractive opportunities in cash, cash equivalents, and/or money market mutual funds.
- Credit Risk is increasing, which may lead to increasing allocations to cash, cash equivalents, and/or money market mutual funds.
- Both Credit and Interest Rate Risk are increasing, which may lead to overweight positions in cash and/or money market funds.

The Sub-Adviser may also invest in mutual funds and/or ETFs that hold other fixed income categories such as foreign and emerging markets bonds, government bonds, or bank loans. The Sub-Adviser may also invest up to 50% of the Fund's assets in mutual funds and/or ETFs that primarily hold convertible bonds or preferred stocks. These mutual funds and/or ETFs may also hold low-rated bonds, or "high yield bonds" / "junk bonds."

To maintain the secondary investment objective consistent with capital preservation, the Sub-Adviser may invest in cash, cash equivalents, and/or money market mutual funds. The Sub-Adviser is unconstrained in its allocation to such investments and may invest up to 100% of the portfolio in such "defensive" positions. The Sub-Adviser may also invest up to 20% of the Fund's assets in inverse mutual funds and/or ETFs in an effort to hedge risks such as interest rate risk. Inverse funds are designed to deliver performance opposite of that of a benchmark index. While the Fund itself does not use derivatives, shorting, or leverage, the underlying mutual funds and/or ETFs may use deriva-

tives and/or employ shorting or leveraging strategies. The Sub-Adviser invests the Fund's assets in a manner consistent with capital preservation when it believes that the market environment calls for a defensive portfolio allocation.

The Sub-Adviser sells the underlying funds in the portfolio when it believes they are not consistent with the primary and/or secondary investment objective as discussed above.

The Fund's investment objective may be changed by the Board of Trustees without shareholder approval. You will receive written notice of any material change in the Fund's objective.

The Principal Risks of Investing in the Fund

The Fund may invest in underlying funds that have any or all of these characteristics and related risks:

Risks in General

The same factors that affect stock market performance generally affect the underlying funds owned by the Fund. Domestic economic growth and market conditions, interest rate levels, and political events are among these factors. There is risk that these and other factors may adversely affect the Fund's performance. You should consider your own investment goals, time horizon, and risk tolerance before investing in the Fund. An investment in the Fund may not be appropriate for all investors and is not intended to be a complete investment program. An investment in the Fund is not a deposit in a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. You may lose money by investing in the Fund.

Mutual Fund and ETF Risk

Mutual funds and ETFs are subject to investment advisory and other expenses, which will be indirectly paid by the Fund. As a result, your cost of investing in the Fund will be higher than the cost of investing directly in other mutual funds and ETFs and may be higher than other mutual funds that invest directly in fixed income securities. Additionally, inverse mutual funds tend to limit the Fund's participation in overall market-wide gains. Mutual fund and ETFs are subject to specific risks depending on the nature of their investments.

Investments in ETFs and inverse and leveraged mutual funds carries correlation risk. Correlation risk is the risk that the performance of an ETF may not completely replicate the performance of the underlying index or basket of stocks. A number of factors may affect an ETF's ability to achieve a high degree of correlation with its benchmark, including fees, expenses, transaction costs, disruptions or illiquidity in the markets for the securities or financial instruments in which the ETF invests, among other things. There can be no guarantee that an ETF will achieve a high degree of correlation. Failure to achieve a high degree of correlation may prevent the Fund from achieving its investment objective.

Risks of Investing in Mutual Funds and ETFs that own Fixed Income Securities

The Fund may invest in underlying funds that own bonds and other debt securities. These securities are subject to the risk that their issuer may not be able to repay the principal and interest when due. This could result in a loss to the underlying fund. In addition, the value of bond and other debt securities held by an underlying fund can change in response to changes in prevailing interest rates, causing volatility and possible loss of value as rates increase. Bonds with longer maturities may lose more value due to interest rate increases than bonds with shorter maturities. Recently, interest rates have been historically low. Current conditions may result in a rise in interest rates, which in turn may result in a decline in the value of the bond investments held by an underlying fund. As a result, for the present, interest rate risk may be heightened.

High Yield Securities Risk / Junk Bond Risk

The Fund may invest in underlying funds that purchase high yield securities. High yield securities are considered speculative and are less likely than higher rated securities to have the capacity to pay interest and repay principal when due in the event of adverse business, financial or economic conditions. Lower-quality bonds, known as "junk bonds" or "high-yield bonds", present greater risk than bonds of higher quality, including an increased risk of default. An economic downturn or period of rising interest rates could adversely affect the market for these bonds and reduce the Fund's ability to sell the mutual funds and/or ETFs that hold these type of securities at a favorable price or without a significant impact to the Fund's share price. The lack of a liquid market for these bonds could decrease the Fund's share price.

Foreign and Emerging Markets Risk

To the extent the Fund invests in underlying funds that own foreign fixed income securities, the Fund may be subject to risks not usually associated with owning securities of U.S. issuers. These risks include adverse political, social and economic developments, differing auditing and legal standards, war, expropriation and nationalization. To the extent the Fund invests in underlying funds that own fixed income securities in emerging markets, the Fund will be subject to emerging market risks. The risks of foreign securities are typically increased in emerging markets. These risks include, among other things, political and economic instability, less developed securities markets and currency devaluations.

Convertible Securities Risk

To the extent that the Fund invests in underlying funds that own convertible securities, the Fund may be subject to additional risks. The market values of convertible securities tend to decline as interest rates increase and, conversely, to increase as interest rates decline. A convertible security's market value, however, tends to reflect the market price of the common stock of the issuing company when that stock price approaches or is greater than the convertible security's "conversion price." The value of a synthetic convertible security will respond differently to market fluctuations than a traditional convertible security because a synthetic convertible is composed of two or more separate securities or instruments, each with its own market value. If the value of the underlying common stock or the level of the index involved in the convertible component falls below the exercise price of the warrant or option, the warrant or option may lose all value.

Preferred Stock Risk

To the extent that the Fund invests in underlying funds that invest in shares of preferred stock, the Fund may be subject to additional risks. Preferred shares generally pay dividends at a specified rate and generally have preference over common shares in the payments of dividends and the liquidation of an issuer's assets. Shareholders may suffer a loss of value if dividends are not paid. Shareholders may experience a loss of value due to adverse interest rate movements or a decline in the issuer's credit rating.

Derivatives Risk

To the extent that the Fund invests in underlying funds that invest in derivatives, the Fund may be subject to additional risks. Derivatives may be riskier than other types of investments because they may be more sensitive to changes in economic and market conditions and could result in losses that significantly exceed an underlying fund's original investment. Derivatives expose the underlying fund to counterparty risk (the risk that the derivative counterparty will not fulfill its contractual obligations), including credit risk (the risk that a counterparty will fail to make payments when due or default completely) of the derivative counterparty. Many derivatives create leverage thereby causing the underlying fund to be more volatile than it would have been if it had not used derivatives. Additionally, even a small investment in an underlying fund that holds derivatives (which include options, futures, swap contracts and other transactions) may subject the Fund to leverage risk which can have a significant impact on the Fund's performance.

Short Selling Risk

Some of the underlying funds may enter into short sales of certain securities and must borrow the securities to make delivery to the buyer. The underlying fund may not always be able to borrow a security it wants to sell short. The underlying fund also may be unable to close out an established short position at an acceptable price, and may have to sell securities it owns at disadvantageous times to cover its short positions. Furthermore, taking short positions in securities results in a form of leverage. Leverage involves special risks described below. An underlying fund's loss on a short sale is potentially unlimited because there is no upward limit on the price a borrowed security could attain.

Inverse Risk and Leverage Risk

To the extent that the Fund invests in underlying funds that employ inverse and leverage investment strategies, the Fund may be subject to additional risks. An inverse underlying fund seeks to deliver the opposite performance of an index, thus the Fund may incur a loss as a result of a investing in an underlying fund that is inversely positioned if the price of the underlying fund's short position instruments increase. The underlying fund's losses are potentially unlimited in a short position transaction. A leveraged underlying fund seeks to deliver multiples of the performance of the index or benchmark it tracks. Leverage causes the value of the underlying fund's shares to be more volatile than if the underlying fund did not use leverage. The compounding effect of a security's returns has a significant impact on all types of investments. As a result of compounding, inverse and leveraged underlying funds may have additional risks. An inverse underlying fund's performance for periods greater than one day is likely to be either greater than or less than the inverse of the index performance as stated in the underlying fund's objective. Similarly, a leveraged underlying fund's performance for periods greater than one day is likely to be either greater than or less than the index performance times the stated multiple in the underlying fund's objective. This effect becomes more pronounced for these types of underlying funds as market volatility increases. Investments by the Fund in inverse and leveraged underlying funds may magnify changes in the Fund's share price and thus result in increased volatility of returns. These types of investments may prevent the Fund from achieving its investment objective.

Portfolio Turnover

The Fund may engage in short-term trading to try to achieve its objective and may have portfolio turnover rates significantly in excess of 100%. Increased portfolio turnover may cause the Fund to incur higher transaction costs and brokerage costs, which may adversely affect the Fund's performance, and may produce increased taxable distributions.

Sector Risks

Sector risk is the possibility that securities within the same group of industries will decline in price due to sector-specific market or economic developments. The Fund may invest a significant portion of its total assets in underlying funds that hold fixed income securities. Securities in the same sector are likely to react similarly to interest rate changes, adverse legislative or regulatory changes, adverse market conditions, and/or increased competition affecting that market segment.

Investment Management Risk

The Sub-Adviser's strategy may fail to produce the intended results.

Risk of Non-Diversification

The Fund is a "non-diversified" portfolio, which means that it has the ability to take larger positions in a smaller number of securities than a portfolio that is "diversified." Non-diversification increases the risk that the value of the Fund could go down because of the poor performance of a single investment. The Fund may invest in underlying funds that are non-diversified. A non-diversified fund has the ability to take larger positions in a smaller number of securities than a portfolio that is "diversified." Investing in non-diversified funds may result in greater volatility.

Performance History

The bar chart and performance table below show the variability of the Fund's returns, which is some indication of the risks of investing in the Fund. The bar chart shows performance of the Fund's Class A Shares for each full calendar year since the Fund's inception. Returns in the bar chart do not reflect sales charges and would be lower if they did. The performance table compares the performance of the Fund's Class A Shares over time to the performance of a broad-based market index. You should be aware that the Fund's past performance (before and after taxes) may not be an indication of how the Fund will perform in the future. Updated performance information is available by calling 1-877-385-2720.

For the period from January 1, 2017 through June 30, 2017 the total return for the Fund was 3.06%.

Best Quarter (June 30, 2016) +3.05% Worst Quarter (December 31, 2015) -2.75%

AVERAGE ANNUAL TOTAL RETURN FOR THE PERIODS ENDED 12/31/16	1 Year	Since Inception (6/29/12)
---	--------	---------------------------------

NEIMAN TACTICAL INCOME FUND

Class A Shares Return Before Taxes	-1.44%	0.98%
Return After Taxes on Distributions for Class A Shares	-2.85%	-0.73%
Return After Taxes on Distributions and Sale of Fund Shares for Class A Shares	-0.82%	0.02%
Barclays Capital US Aggregate Bond Index (does not reflect deductions for fees, expenses or taxes)	2.65%	1.95%
S&P 500 Index (does not reflect deductions for fees, expenses or taxes)	11.96%	14.07%

The average annual total returns for the Fund's Class A shares are reduced to reflect the maximum applicable sales charges. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts.

Management

Investment Adviser

Neiman Funds Management LLC is the Fund's investment adviser (the "Adviser"). Absolute Capital Management, LLC is the Fund's Sub-Adviser.

Portfolio Manager

Phillip Brenden Gebben has managed the Fund since October 2013. Mr. Gebben has served as Managing Director of the Sub-Adviser since 2002.

Purchase and Sale of Fund Shares (Class A Shares)

The minimum initial and subsequent investment amounts for various types of accounts offered by the Fund are shown below.

	<u>Initial</u>	<u>Additional</u>
Regular Account	\$2,500	\$100
Automatic Investment Plan	\$1,000	\$100*
IRA Account	\$1,000	\$100

*An Automatic Investment Plan requires a \$100 minimum automatic monthly or quarterly investment.

You may purchase or redeem Fund shares on any business day directly with the Fund or through your financial intermediary. You may conduct transactions by mail (Neiman Funds, c/o Mutual Shareholder Services, 8000 Town Centre Drive, Suite 400, Broadview Heights, Ohio 44147), by wire, or by telephone at 1-877-385-2720.

Tax Information

The Fund's distributions will be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account. Such tax-deferred arrangements may be taxed later upon withdrawal of monies from those arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund or its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

Investment Objectives, Principal Investment Strategies, Related Risks, and Disclosure of Portfolio Holdings

Investment Objective

- The Neiman Tactical Income Fund's (the "Fund") primary objective is total return with capital preservation as a secondary objective.

The Principal Investment Strategy of the Fund

Under normal circumstances, Absolute Capital Management, LLC (the "Sub-Adviser") invests the Fund's assets primarily in a portfolio of open-end investment companies ("mutual funds") and/or Exchange-Traded Funds ("ETFs") that hold fixed income securities. The Sub-Adviser may invest up to 50% of the Fund's assets in mutual funds and/or ETFs that primarily hold convertible bonds or preferred stocks. The Fund's secondary investment objective is capital preservation. To maintain the secondary investment objective the Sub-Adviser may invest the Fund's assets in cash, cash equivalents, and/or money market mutual funds, including up to 20% of the Fund's assets in inverse mutual funds and/or ETFs.

The Investment Selection Process Used by the Fund

The Sub-Adviser seeks to achieve the Fund's primary investment objective by investing primarily in a portfolio of underlying funds. Under normal circumstances, the primary asset class for achieving the Fund's total return objective is low-rated corporate bonds, or "high yield bonds" / "junk bonds." The Sub-Adviser defines high yield bonds as those rated lower than Baa3 by Moody's Investors Service ("Moody's") or lower than BBB- by Standard and Poor's Rating Group ("S&P"), or if unrated, determined by the Sub-Adviser to be of similar credit quality. The Sub-Adviser is unconstrained in terms of the underlying mutual fund and/or ETF's portfolio maturity, credit rating, issuer, country, or currency. The Sub-Adviser invests the Fund's assets in a manner consistent with the primary investment strategy when it believes that the market environment in terms of the economic cycle, market cycle, and interest rate cycle, is conducive to investing in high yield bonds. Tactical decisions are made to move out of high yield bonds for one of three reasons:

- Economic and trend analysis identify more attractive opportunities in cash, cash equivalents, and/or money market mutual funds.
- Credit Risk is increasing, which may lead to increasing allocations to cash, cash equivalents, and/or money market mutual funds.
- Both Credit and Interest Rate Risk are increasing, which may lead to overweight positions in cash and/or money market funds.

The Sub-Adviser may also invest in mutual funds and/or ETFs that hold other fixed income categories such as foreign and emerging markets bonds, government bonds, or bank loans. The Sub-Adviser may also invest up to 50% of the Fund's assets in mutual funds and/or ETFs that primarily hold convertible bonds or preferred stocks. These mutual funds and/or ETFs may also hold low-rated bonds, or "high yield bonds" / "junk bonds."

To maintain the secondary investment objective consistent with capital preservation, the Sub-Adviser may invest in cash, cash equivalents, and/or money market mutual funds. The Sub-Adviser is unconstrained in its allocation to such investments and may invest up to 100% of the portfolio in such "defensive" positions. The Sub-Adviser may also invest up to 20% of the Fund's assets in inverse mutual funds and/or ETFs in an effort to hedge risks such as interest rate risk. Inverse funds are designed to deliver performance opposite of that of a benchmark index. While the Fund itself does not use derivatives, shorting, or leverage, the underlying mutual funds and/or ETFs may use deriva-

tives and/or employ shorting or leveraging strategies. The Sub-Adviser invests the Fund's assets in a manner consistent with capital preservation when it believes that the market environment calls for a defensive portfolio allocation.

The Sub-Adviser sells the underlying funds in the portfolio when it believes they are not consistent with the primary and/or secondary investment objective as discussed above.

The Fund's investment objective may be changed by the Board of Trustees without shareholder approval. You will receive written notice of any material change in the Fund's objective.

The Principal Risks of Investing in the Fund

The Fund may invest in underlying funds that have any or all of these characteristics and related risks:

Risks in General

The same factors that affect stock market performance generally affect the underlying funds owned by the Fund. Domestic economic growth and market conditions, interest rate levels, and political events are among these factors. There is risk that these and other factors may adversely affect the Fund's performance. You should consider your own investment goals, time horizon, and risk tolerance before investing in the Fund. An investment in the Fund may not be appropriate for all investors and is not intended to be a complete investment program. An investment in the Fund is not a deposit in a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. You may lose money by investing in the Fund.

Mutual Fund and ETF Risk

The Fund invests a substantial portion of its assets in mutual funds and ETFs. To the extent that the Fund invests in mutual funds and ETFs, the Fund will indirectly bear its proportionate share of any expenses (such as operating expenses and advisory fees) that may be paid by the mutual funds and ETFs in which it invests. These expenses would be in addition to the advisory and other expenses that the Fund bears in connection with its own operations. The Fund will also incur brokerage costs when it purchases ETFs. Investments in certain ETFs also may be subject to substantial regulation, including potential restrictions on liquidity and potential adverse tax consequences if the ETFs does not meet certain requirements.

Correlation risk is the risk that the performance of an ETF may not completely replicate the performance of the underlying index or basket of stocks. A number of factors may affect an ETF's ability to achieve a high degree of correlation with its benchmark, including fees, expenses, transaction costs, disruptions or illiquidity in the markets for the securities or financial instruments in which the ETF invests, among other things. There can be no guarantee that an ETF will achieve a high degree of correlation. Failure to achieve a high degree of correlation may prevent the Fund from achieving its investment objective.

Risks of Investing in Mutual Funds and ETFs that own Fixed Income Securities

The Fund may invest in underlying funds that own bonds and other debt securities. These securities are subject to the risk that their issuer may not be able to repay the principal and interest when due. This could result in a loss to the underlying fund. In addition, the value of bond and other debt securities held by an underlying fund can change in response to changes in prevailing interest rates, causing volatility and possible loss of value as rates increase. Bonds with longer maturities may lose more value due to interest rate increases than bonds with shorter maturities. Recently, interest rates have been historically low. Current conditions may result in a rise in interest rates, which in turn may result in a decline in the value of the bond investments held by an underlying fund. As a result, for the present, interest rate risk may be heightened.

High Yield Securities Risk / Junk Bond Risk

The Fund's investments may include underlying funds that own high yield bonds. High yield bonds include convertible and non-convertible debt securities rated BB+ or lower by Standard & Poor's Corporation, a division of The McGraw-Hill Companies, or Ba1 or lower by Moody's Investor Services, Inc., as well as securities that are not rated but are considered by the Sub-Adviser to be of similar quality. High yield securities are commonly called "junk bonds." The Fund's investment in underlying funds that own junk bonds entails a greater risk than an investment in higher-rated securities. High yield securities are predominantly speculative with respect to the issuer's capacity to pay interest and repay principal in accordance with the terms of the obligation. The market for high yield securities is generally less active than the market for higher quality securities. This may limit the ability of the underlying fund to sell high yield securities at the price at which they are being valued for purposes of calculating net asset value. Although junk bonds typically pay interest at higher rates than investment-grade bonds, there is a greater likelihood that the company issuing the junk bond will default on interest and principal payments.

Foreign and Emerging Markets Risk

To the extent the Fund invests in underlying funds that own foreign securities, including American Depositary Receipts ("ADRs"), the Fund may be subject to risks not usually associated with owning securities of U.S. issuers. These risks include adverse political, social and economic developments, differing auditing and legal standards, war, expropriation and nationalization. This also includes the risk that fluctuations in the exchange rates between the U.S. dollar and foreign currencies may negatively affect an investment. Adverse changes in exchange rates may erode or reverse any gains produced by foreign currency denominated investments and widen any losses. In addition, the costs of foreign investing, including withholding taxes, brokerage commissions, and custodial costs, generally are higher than for U.S. investments. Foreign issuers, brokers, and securities markets may also be subject to less government supervision than in the U.S. To the extent the Fund invests in underlying funds that own foreign fixed income securities, the Fund may be subject to risks not usually associated with owning securities of U.S. issuers. These risks include adverse political, social and economic developments, differing auditing and legal standards, war, expropriation and nationalization. To the extent the Fund invests in underlying funds that own fixed income securities in emerging markets, the Fund will be subject to emerging market risks. The risks of foreign securities are typically increased in emerging markets. These risks include, among other things, political and economic instability, less developed securities markets and currency devaluations.

Convertible Securities Risk

To the extent that the Fund invests in underlying funds that own convertible securities, the Fund may be subject to additional risks. Convertible securities are fixed income securities, preferred stocks or other securities that are convertible into or exercisable for common stock of the issuer (or cash or securities of equivalent value) at either a stated price or a stated rate. The market values of convertible securities tend to decline as interest rates increase and, conversely, to increase as interest rates decline. A convertible security's market value, however, tends to reflect the market price of the common stock of the issuing company when that stock price approaches or is greater than the convertible security's "conversion price." The conversion price is defined as the predetermined price at which the convertible security could be exchanged for the associated stock. As the market price of the underlying common stock declines, the price of the convertible security tends to be influenced more by the yield of the convertible security. Thus, it may not decline in price to the same extent as the underlying common stock. In the event of a liquidation of the issuing company, holders of convertible securities would be paid before the company's common stockholders but after holders of any senior debt obligations of the company. Consequently, the issuer's convertible securities generally entail less risk than its common stock but more risk than its debt obligations.

Synthetic convertible securities involve the combination of separate securities that possess the two principal characteristics of a traditional convertible security (i.e., an income-producing component and a right to acquire an equity security. Synthetic convertible securities are often achieved, in part, through investments in warrants or options to buy common stock (or options on a stock index), and therefore are subject to the risks associated with derivatives. The value of a synthetic convertible security will respond differently to market fluctuations than a traditional convertible security because a

synthetic convertible is composed of two or more separate securities or instruments, each with its own market value. Because the convertible component is typically achieved by investing in warrants or options to buy common stock at a certain exercise price, or options on a stock index, synthetic convertible securities are subject to the risks associated with derivatives. In addition, if the value of the underlying common stock or the level of the index involved in the convertible component falls below the exercise price of the warrant or option, the warrant or option may lose all value.

Preferred Stock Risk

To the extent that the Fund invests in underlying funds that invest in shares of preferred stock, the Fund may be subject to additional risks. Preferred shares generally pay dividends at a specified rate and generally have preference over common shares in the payments of dividends and the liquidation of an issuer's assets. Shareholders may suffer a loss of value if dividends are not paid. Shareholders may experience a loss of value due to adverse interest rate movements or a decline in the issuer's credit rating.

Derivatives Risk

Certain underlying funds may use derivatives in connection with their investment strategies. Derivatives may be riskier than other types of investments because they may be more sensitive to changes in economic or market conditions than other types of investments and could result in losses that significantly exceed the underlying fund's original investment. Derivatives are subject to the risk that changes in the value of a derivative may not correlate perfectly with the underlying asset, rate or index. The use of derivatives may not be successful, resulting in losses to the underlying fund, and the cost of such strategies may reduce the underlying fund's returns. Derivatives also expose the underlying fund to counterparty risk, including credit risk of the derivative counterparty. In addition, the underlying fund may use derivatives for non-hedging purposes, which increases the underlying fund's potential for loss. Investing in derivatives and engaging in short sales will result in a form of leverage. Leverage involves special risks. The underlying fund may be more volatile than if the underlying fund had not been leveraged because leverage tends to exaggerate the effect of any increase or decrease in the value of the underlying fund's portfolio securities.

Short Selling Risk

Some of the underlying funds may enter into short sales of certain securities and must borrow the securities to make delivery to the buyer. The underlying fund may not always be able to borrow a security it wants to sell short. The underlying fund also may be unable to close out an established short position at an acceptable price, and may have to sell securities it owns at disadvantageous times to cover its short positions. Furthermore, taking short positions in securities results in a form of leverage. Leverage involves special risks described below. A underlying fund's loss on a short sale is potentially unlimited because there is no upward limit on the price a borrowed security could attain.

Inverse and Leverage Risk

To the extent that the Fund invests in underlying funds that employ inverse and leverage investment strategies, the Fund may be subject to additional risks. An inverse underlying fund seeks to deliver the opposite performance of an index, thus the Fund may incur a loss as a result of a investing in an underlying fund that is inversely positioned if the price of the underlying fund's short position instruments increase. The underlying fund's losses are potentially unlimited in a short position transaction. A leveraged underlying fund seeks to deliver multiples of the performance of the index or benchmark it tracks. Leverage causes the value of the underlying fund's shares to be more volatile than if the underlying fund did not use leverage. The compounding effect of a security's returns has a significant impact on all types of investments. As a result of compounding, inverse and leveraged underlying funds may have additional risks. An inverse underlying fund's performance for periods greater than one day is likely to be either greater than or less than the inverse of the index performance as stated in the underlying fund's objective. Similarly, a leveraged underlying fund's performance for periods greater than one day is likely to be either greater than or less than the index performance times the stated multiple in the underlying fund's objective. This effect becomes more pronounced for these types of underlying funds as market volatility increases. Investments by the Fund in inverse and leveraged underlying funds may magnify changes in the Fund's share price and thus result in

increased volatility of returns. These types of investments may prevent the Fund from achieving its investment objective.

Portfolio Turnover

The Fund may engage in short-term trading to try to achieve its objective and may have portfolio turnover rates significantly in excess of 100%. Increased portfolio turnover may cause the Fund to incur higher transaction costs and brokerage costs, which may adversely affect the Fund's performance, and may produce increased taxable distributions.

Sector Risks

Sector risk is the possibility that securities within the same group of industries will decline in price due to sector-specific market or economic developments. The Fund may invest a significant portion of its total assets in underlying funds that hold fixed income securities. Securities in the same sector are likely to react similarly to interest rate changes, adverse legislative or regulatory changes, adverse market conditions, and/or increased competition affecting that market segment.

Investment Management Risk

The Sub-Adviser's strategy may fail to produce the intended results.

Risk of Non-Diversification

The Fund is a "non-diversified" portfolio, which means that it has the ability to take larger positions in a smaller number of securities than a portfolio that is "diversified." Non-diversification increases the risk that the value of the Fund could go down because of the poor performance of a single investment. The Fund may invest in underlying funds that are non-diversified. A non-diversified fund has the ability to take larger positions in a smaller number of securities than a portfolio that is "diversified." Investing in non-diversified funds may result in greater volatility.

Portfolio Holdings Disclosure

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the Fund's Statement of Additional Information ("SAI").

Management

The Investment Adviser

Neiman Funds Management LLC is the investment adviser of the Fund and has responsibility for the management of the Fund's affairs, under the supervision of the Trust's Board of Trustees. The Adviser was organized in 2009. The Adviser serves as investment adviser to the Neiman Funds. The address of the Adviser is 6631 Main Street, Williamsville, NY 14221.

The Adviser manages the investment portfolio of the Fund, subject to the policies adopted by the Trust's Board of Trustees. Under the Management Agreement, the Adviser, at its own expense and without reimbursement from the Trust, furnishes office space and all necessary office facilities, equipment and executive personnel necessary for managing the Fund. The Adviser receives an annual investment management fee of 1.00% of the average daily net assets of the Fund. For the fiscal period ended March 31, 2017, the Adviser received management fees, after management fee waivers, of 0.44% of the daily net assets of the Fund. The Adviser has agreed to waive management fees and reimburse expenses to the extent necessary to maintain total annual operating expenses of the Fund (excluding brokerage fees and commissions, interest and other borrowing expenses, taxes, indirect expenses (such as expenses of other investment companies in which the Fund invests) and extraordinary expenses) at 1.45% of its average daily net assets for Class A Shares through July 31, 2018.

A discussion regarding the basis of the Board of Trustees' approval of the Management Agreement between the Trust and Neiman Funds Management LLC is available in the Fund's semi-annual report to shareholders dated September 30, 2016.

The Fund has adopted a Distribution Plan under Rule 12b-1 that allows it to pay distribution and other fees for the sale and distribution of its shares and for services provided to shareholders. To the extent that the Distribution Plan under Rule 12b-1 does not cover these costs, the Adviser (not the Fund) may pay certain financial institutions (which may include banks, brokers, securities dealers and other industry professionals) a fee for providing distribution related services and/or for performing certain administrative servicing functions for Fund shareholders to the extent these institutions are allowed to do so by applicable statute, rule or regulation. The Fund may from time to time purchase securities issued by financial institutions that provide such services; however, in selecting investments for the Fund, these services will not be taken into consideration.

The Investment Sub-Adviser

Absolute Capital Management, LLC serves as the investment sub-adviser of the Fund. The Sub-Adviser makes the day-to-day investment decisions and continuously reviews, supervises and administers the Fund's investment program. The Sub-Adviser was organized in 2002 and is located at 101 Pennsylvania Boulevard, Pittsburgh, PA 15228. The Fund's investment portfolio is managed on a day-to-day basis by Phillip Brenden Gebben. The Sub-Adviser had \$290.7 million in assets under management as of March 31, 2017. A discussion regarding the basis of the Board of Trustees' approval of the Investment Sub-Advisory Agreement between the Neiman Funds Management LLC and Absolute Capital Management, LLC is available in the Fund's semi-annual report to shareholders dated September 30, 2016.

Phillip Brenden Gebben

Mr. Gebben is the Portfolio Manager for the Fund. Mr. Gebben has served as Managing Director of Absolute Capital since 2002. Mr. Gebben is responsible for portfolio management, research, product design and operations at Absolute Capital. He earned an M.B.A. from the University of Illinois, Springfield, and his B.A. from Illinois Wesleyan University. He holds a Certified Investment Management Analyst designation through IMCA in conjunction with the Wharton School of Business.

The Fund's Statement of Additional Information provides information about the portfolio manager's compensation, other accounts managed by the portfolio manager, and the portfolio manager's ownership of Fund shares.

Shareholder Information

Pricing of Fund Shares

The price you pay for a share of the Fund, and the price you receive upon selling or redeeming a share of the Fund, is based on the Fund's net asset value ("NAV"). A separate NAV is calculated for each share class of the Fund. The NAV for a class is calculated by adding the total value of the Fund's investments and other assets allocable to a class, subtracting the liabilities allocable to that class and then dividing that figure by the number of outstanding shares of the class:

$$\text{Net Asset Value} = (\text{Total Assets} - \text{Liabilities}) / \text{Number of Shares Outstanding}$$

The NAV is generally calculated as of the close of trading on the New York Stock Exchange (normally 4:00 p.m. Eastern time) every day the Exchange is open. The New York Stock Exchange is generally open every day other than weekends and holidays. All purchases, redemptions or reinvestments of Fund shares will be priced based on the next NAV calculated after your order is received in proper form by the Fund's Transfer Agent, Mutual Shareholder Services. If you purchase shares directly from the Fund, your order must be placed with the Transfer Agent prior to the close of the trading of

the New York Stock Exchange in order to be confirmed for that day's NAV. The NAV of the Fund is calculated based on the reported NAV of the various underlying funds in which the Funds invest. Certain short-term securities may be valued at amortized cost, which approximates market value. The market value of an underlying fund's investments is determined primarily on the basis of readily available market quotations for the underlying fund's portfolio securities. The prospectuses for the underlying funds explain the circumstances under which those companies will use fair value pricing and the effects of using fair value pricing. If market prices are not available or, in the Adviser's opinion, market prices do not reflect fair value, or if an event occurs after the close of trading (but prior to the time the NAV is calculated) that materially affects fair value, the Adviser may value the Fund's assets at their fair value according to policies approved by the Fund's Board of Trustees. For example, if trading in a portfolio security is halted and does not resume before the Fund calculates its NAV, the Adviser may need to price the security using the Fund's fair value pricing guidelines. Without a fair value price, short term traders could take advantage of the arbitrage opportunity and dilute the NAV of long term investors. Fair valuation of a Fund's portfolio securities can serve to reduce arbitrage opportunities available to short term traders, but there is no assurance that fair value pricing policies will prevent dilution of the Fund's NAV by short term traders. Fair valuation involves subjective judgements and it is possible that the fair value determined for a security may differ materially from the value that could be realized upon the sale of the security. The Fund may use pricing services to determine market value.

How to Purchase Shares

You may purchase shares directly through the Fund's transfer agent or through a brokerage firm or other financial institution that has agreed to sell the Fund's shares. If you are investing directly in the Fund for the first time, you will need to establish an account by completing a Shareholder Account Application (to establish an IRA, complete an IRA Application). To request an application, call toll-free 1-877-385-2720. Your initial investment minimum can be found in the table below. The Fund reserves the right to change the amount of these minimums from time to time or to waive them in whole or in part for certain accounts. Investment minimums may be higher or lower to investors purchasing shares through a brokerage firm or other financial institution. The Fund reserves the right to waive sales charges.

Purchases Through Financial Intermediaries

You may make initial and subsequent purchases of shares of the Fund through a financial intermediary, such as an investment adviser or broker-dealer, bank or other financial institution that purchases shares for its customers. Before investing in the Fund through a financial intermediary, you should read carefully any materials provided by the intermediary together with this prospectus.

If you invest through a brokerage firm or other financial institution, the policies and fees may be different than those described in this prospectus. Financial advisers, financial supermarkets, brokerage firms, and other financial institutions may charge transaction and other fees and may set different minimum investments or limitations on buying or selling shares. Consult a representative of your financial institution if you have any questions.

When shares are purchased this way, the financial intermediary may:

- charge a fee for its services;
- act as the shareholder of record of the shares;
- set different minimum initial and additional investment requirements;
- impose other charges and restrictions;
- designate intermediaries to accept purchase and sale orders on the Fund's behalf; or
- impose an earlier cut-off time for purchase and redemption requests.

The Fund considers a purchase or sale order as received when a financial intermediary receives the order in proper form before 4:00 p.m. Eastern Time. These orders will be priced based on the Fund's NAV, plus any applicable sales charge, next computed after such order is received by the financial intermediary. It is the responsibility of the financial intermediary to transmit properly completed purchase orders to the Fund in a timely manner.

Shares held through an intermediary may be transferred into your name following procedures established by your intermediary and the Fund. Certain intermediaries may receive compensation from the Fund, the Adviser or their affiliates.

Fund Direct Purchases

You may also purchase shares directly through the Fund's transfer agent. Your purchase order will be priced based on the Fund's NAV, plus any applicable sales charge, next computed after your order is received by the Fund. If you are investing directly in the Fund for the first time, you will need to establish an account by completing a Shareholder Account Application (To establish an IRA, complete an IRA Application). To request an application, call toll-free 1-877-385-2720. Your initial investment minimum can be found in the table below. The Fund reserves the right to change the amount of these minimums from time to time or to waive them in whole or in part for certain accounts. Investment minimums may be higher or lower to investors purchasing shares through a brokerage firm or other financial institution.

Customer Identification Program

IMPORTANT INFORMATION ABOUT PROCEDURES FOR OPENING A NEW ACCOUNT

To help the government fight the funding of terrorism and money laundering activities, Federal law requires all financial institutions to obtain, verify, and record information that identifies each person who opens an account. This means that, when you open an account, we will ask for your name, address, date of birth, and other information that will allow us to identify you. We may also ask for identifying documents, and may take additional steps to verify your identity. We may not be able to open an account or complete a transaction for you until we are able to verify your identity.

Sales Charges

Shares of the Fund are purchased at their NAV plus any applicable sales charge. This is known as the public offering price.

The Fund's Distributor compensates financial intermediaries, including processing organizations, who sell shares of the Funds. Compensation comes from sales charges, Rule 12b-1 fees and payments by the Adviser.

To obtain free information regarding sales charges and the reduction or elimination or waiver of sales charges on Class A shares, visit www.neimanfunds.com or call 1-877-385-2720. You also may contact your financial intermediary.

Class A Shares

The public offering price for Class A shares of the Fund is the next determined NAV plus a sales charge, unless you qualify for a waiver of the sales charge. The table below shows the amount of sales charge you would pay at different levels of investment and the commissions paid to financial intermediaries at each level of investment.

Amount of Investment	Sales Charge as a % of		
	Public Offering Price	Net Amount Invested	Financial Intermediary Commission ¹
Less than \$50,000	5.75%	6.10%	5.00%
\$50,000 but less than \$100,000	4.50%	4.71%	3.75%
\$100,000 but less than \$250,000	3.75%	3.90%	3.00%
\$250,000 but less than \$500,000	3.00%	3.09%	2.50%
\$500,000 but less than \$1,000,000	2.00%	2.04%	1.50%
\$1,000,000 or more	None	None	None

¹As a percentage of the public offering price.

The Adviser may make a payment to financial intermediaries for your cumulative investments of \$1 million or more of Class A shares. However, if you purchase \$1 million or more of Class A shares of the Fund and are not assessed a sales charge at the time of purchase, you may be charged the equivalent of up to 1.00% of the amount invested if you redeem any or all of the Class A shares of a Fund during the first 18 months after purchase. This charge applies to all your purchases. See the Statement of Additional Information for more details.

The Fund permits you to reduce the initial sales charge you pay on Class A shares by using the Right of Accumulation or a Letter of Intent. Each of these methods for reducing the initial sales charge on Class A shares is described below. In taking advantage of these methods for reducing the initial sales charge you will pay, you may link your purchases of shares with purchases of shares in accounts owned by your spouse or children under the age of 21 who share your residential address. It is your responsibility when investing to inform your Financial Intermediary or the Fund that you would like to have one or more accounts linked together for purposes of reducing the initial sales charge.

Right of Accumulation: You may qualify for a reduction in the initial sales charge for future purchases of Class A shares based on the current market value of your Class A holdings from prior purchases through the Right of Accumulation. To calculate the sales charge applicable to your net purchase of Class A shares, you may aggregate your investment with the current market value of any Class A shares of the Fund held in:

1. Your account(s);
2. Your spouse's account(s);
3. Joint accounts with qualified spouse;
4. Account(s) of children under the age of 21 who share your residential address;
5. Trust accounts established by any of the individuals in items (1) through (3) above. If the person(s) who established the trust is deceased, the trust account may be aggregated with the account(s) of the primary beneficiary of the trust;
6. Solely controlled business accounts; and
7. Single-participant retirement plans of any of the individuals in items (1) through (3) above.

In order to obtain any reduction in the initial sales charge, you must, before purchasing Class A shares, inform the Fund or your Financial Intermediary if you have any of the above types of accounts that can be aggregated with your current investment in Class A shares to reduce the applicable sales charge. In order to verify your eligibility for a reduced sales charge, you may be required to provide appropriate documentation, such as an account statement or the social security or tax

identification number on an account, so that the Fund may verify (1) the number of shares of the Fund held in your account(s) with the Fund, (2) the number of shares of the Fund held in your account(s) with a Financial Intermediary, and (3) the number of shares of the Fund held in an account with a Financial Intermediary owned by your spouse or by children under the age of 21 who share your residential address.

Letter of Intent: You may purchase Class A shares at the sales charge rate applicable to the total amount of the purchases you intend to make over a 13-month period. The Fund will combine the value of your current purchases with the current value of any Class A shares you purchased previously for (i) your account, (ii) your spouse's account, (iii) a joint account with your spouse, or (iv) your minor children's trust or custodial accounts. In calculating the total amount of purchases, you may include in your letter purchases made up to 90 days before the date of the Letter of Intent. A fiduciary purchasing shares for the same fiduciary account, trust or estate may also consider the value of Class A shares purchased previously that were sold subject to a sales charge. In other words, a Letter of Intent allows you to purchase Class A shares of the Fund over a 13-month period and receive the same sales charge as if you had purchased all the shares at the same time. The Fund will also consider the value of Class A shares sold at NAV. Class A shares purchased with dividends or distributions will not be included in the calculation. To be entitled to a reduced sales charge on the purchase of Class A shares based on shares you intend to purchase over the 13-month period, you must send the Fund a Letter of Intent. The 13-month period begins on the date of the first purchase, including those purchases made in the 90-day period before the date of the Letter of Intent. Please note that the purchase price of these prior purchases will not be adjusted.

You are not legally bound by the terms of your Letter of Intent to purchase the amount of shares stated in the Letter of Intent. The Letter of Intent does, however, authorize the Fund to hold in escrow 5.00% of the total amount you intend to purchase. If you do not complete the total intended purchase of Class A shares at the end of the 13-month period, the Fund's transfer agent will redeem the necessary portion of the escrowed shares to make up the difference between the reduced sales charge rate (based on the amount you intended to purchase) and the sales charge rate that would normally apply (based on the actual amount you purchased).

Additional information regarding the reduction of Class A sales charges is available in the Fund's Statement of Additional Information. To take advantage of the Right of Accumulation and/or a Letter of Intent, contact the Fund or your Financial Intermediary. To determine if you are eligible for these programs or to request a copy of the Statement of Additional Information, call 1-877-385-2720 between the hours of 8:30 a.m. and 5:00 p.m. Eastern Time on days the Fund is open for business. These programs may be terminated or amended at any time.

Sales Charge Waivers

Sales charges may be waived and no sales charge is imposed on Class A shares of the Fund if the shares were:

1. Bought by officers, directors or trustees, and employees and their immediate family members (i.e., spouses, children, grandchildren, parents, grandparents and any dependent of the person, as defined in section 152 of the Internal Revenue Code) of:
 - Neiman Funds;
 - Neiman Funds Management LLC and its subsidiaries and affiliates;
 - Absolute Capital Management, LLC and its subsidiaries and affiliates;
 - The Distributor and its subsidiaries and affiliates; or
 - Broker-dealers or financial institutions that have entered into dealer agreements with the Funds or their principal underwriter and their subsidiaries and affiliates (or otherwise have an arrangement with a broker-dealer or financial institution with respect to sales of Fund shares).

2. Bought by advisory clients of Neiman Funds Management LLC and its subsidiaries and affiliates or bought by advisory clients of Absolute Capital Management, LLC and its subsidiaries and affiliates.
3. Bought by certain retirement and deferred compensation plans, and trusts used to fund those plans, including, but not limited to, those plans qualified under sections 401(k), 403(b) or 457 of the Internal Revenue Code and "rabbi trusts."
4. Bought by financial intermediaries who have a dealer arrangement with the Distributor, who place trades for their own accounts or for the accounts of their clients and who charge a management, asset allocation, consulting or other fee for their services, or clients of such financial intermediaries who place trades for their own accounts if the accounts are linked to the master account of such Financial Intermediary.
5. Bought by an investment adviser, broker-dealer or financial planner, provided arrangements are pre-approved.
6. Bought by a bank, trust company or thrift institution which is acting as a fiduciary exercising investment discretion, provided that appropriate notification of such a fiduciary relationship is reported at the time of the investment to the Fund or the Fund's Distributor.
7. Bought by employer-sponsored health savings accounts.
8. Bought with proceeds from the sale of Class A shares of the Fund, but only if the purchase is made within 90 days of the sale or distribution. Appropriate documentation may be required. Exercising the reinvestment privilege will not affect the character of any gain or loss realized on the redemption for federal income tax purposes, except that if the redemptions resulted in a loss, the reinvestment may result in the loss being disallowed under the "wash sale" rules.
9. Bought in connection with plans of reorganizations of the Fund, such as mergers, asset acquisitions and exchange offers to which the Fund is a party.
10. Bought by a "charitable organization" as defined for purposes of Section 501(c)(3) of the Internal Revenue Code, or by a charitable remainder trust or life income pool established for the benefit of a charitable organization.

To take advantage of any of these sales charge waivers, you must qualify for such waiver. To see if you qualify, call 1-877-385-2720 between the hours of 8:30 a.m. and 5:00 p.m. Eastern Time on days the Fund is open for business or contact your Financial Intermediary. These waivers may not continue indefinitely and may be discontinued at any time without notice.

Rule 12b-1 Fees

The Fund has adopted a Distribution Plan under Rule 12b-1 that allows it to pay distribution and other fees for the sale and distribution of its shares and for services provided to shareholders. These fees are called "Rule 12b-1 fees." Rule 12b-1 fees are paid by the Fund to the Fund's distributor as compensation for its services and expenses in connection with the distribution of Class A Shares of the Fund. The Fund's distributor may pay any or all amounts received under the Rule 12b-1 Plan to other persons, including the Adviser, for any distribution, promotional or shareholder support services. Class A shares pay an annual Rule 12b-1 fee equal to 0.25% of the average daily net assets attributable to Class A shares. Up to 0.25% of the 12b-1 fee may be used as a shareholder servicing fee. Because these fees are paid out of the Fund's assets on an on-going basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges.

Minimum Investments (Class A Shares)

	<u>Initial</u>	<u>Additional</u>
Regular Account	\$2,500	\$100
Automatic Investment Plan	\$1,000	\$100*
IRA Account	\$1,000	\$100

*An Automatic Investment Plan requires a \$100 minimum automatic monthly or quarterly investment.

All purchases must be made in U.S. dollars and checks must be drawn on U.S. banks. No cash, money orders, travelers checks, credit cards, credit card checks, third party checks or other checks deemed to be high-risk checks will be accepted. A \$20 fee will be charged against your account for any payment check returned to the transfer agent or for any incomplete electronic fund transfer, or for insufficient funds, stop payment, closed account or other reasons. If a check does not clear your bank or the Fund is unable to debit your predesignated bank account on the day of purchase, the Fund reserves the right to cancel the purchase. If your purchase is canceled, you will be responsible for any losses or fees imposed by your bank and losses that may be incurred as a result of a decline in the value of the canceled purchase. The Fund (or Fund agent) has the authority to redeem shares in your account(s) to cover any losses due to fluctuations in share price. Any profit on such cancellation will accrue to the Fund. Your investment in the Fund should be intended to serve as a long-term investment vehicle. The Fund is not designed to provide you with a means of speculating on the short-term fluctuations in the stock market. The Fund reserves the right to reject any purchase request that it regards as disruptive to the efficient management of the Fund, which includes investors with a history of excessive trading. The Fund also reserves the right to stop offering shares at any time.

Types of Account Ownership

You can establish the following types of accounts by completing a Shareholder Account Application:

- **Individual or Joint Ownership**

Individual accounts are owned by one person. Joint accounts have two or more owners.

- **A Gift or Transfer to Minor (UGMA or UTMA)**

A UGMA/UTMA account is a custodial account managed for the benefit of a minor. To open an UGMA or UTMA account, you must include the minor's social security number on the application.

- **Trust**

An established trust can open an account. The names of each trustee, the name of the trust and the date of the trust agreement must be included on the application.

- **Business Accounts**

Corporation and partnerships may also open an account. The application must be signed by an authorized officer of the corporation or a general partner of a partnership.

- **IRA Accounts**

See "Tax-Deferred Plans" on page 21.

Instructions For Opening and Adding to an Account

TO OPEN AN ACCOUNT

By Mail

Complete and sign the Shareholder Application or an IRA Application

Make your check payable to Neiman Tactical Income Fund

- For IRA accounts, please specify the year for which the contribution is made.

Mail the application and check to:

Neiman Tactical Income Fund
c/o Mutual Shareholder Services
8000 Town Centre Drive, Suite 400
Broadview Heights, Ohio 44147

By overnight courier, send to:

Neiman Tactical Income Fund
c/o Mutual Shareholder Services
8000 Town Centre Drive, Suite 400
Broadview Heights, Ohio 44147

TO ADD TO AN ACCOUNT

By Mail

Complete the investment slip that is included with your account statement, and write your account number on your check. If you no longer have your investment slip, please reference your name, account number, and address on your check.

Mail the slip and the check to:

Neiman Tactical Income Fund
c/o Mutual Shareholder Services
8000 Town Centre Drive, Suite 400
Broadview Heights, Ohio 44147

TO OPEN AN ACCOUNT

By Wire

Call 1-877-385-2720 for instructions and to obtain an investor account number or an IRA account number prior to wiring to the Fund.

Telephone and Wire Transactions

With respect to all transactions made by telephone, the Fund and its transfer agent will employ reasonable procedures to confirm that instructions communicated by telephone are genuine. Such procedures may include, among others, requiring some form of personal identification prior to acting upon telephone instructions, providing written confirmation of all such transactions, and/or tape recording all telephone instructions. If reasonable procedures are followed, then neither the Fund nor the transfer agent will be liable for any loss, cost, or expense for acting upon an investor's telephone instructions or for any unauthorized telephone redemption. In any instance where the Fund's transfer agent is not reasonably satisfied that instructions received by telephone are genuine, neither the Fund nor the transfer agent shall be liable for any losses which may occur because of delay in implementing a transaction.

If you purchase your initial shares by wire, the transfer agent first must have received a completed account application and issued an account number to you. The account number must be included in the wiring instructions as set forth on the previous page. The transfer agent must receive your account application to establish shareholder privileges and to verify your account information. Payment of redemption proceeds may be delayed and taxes may be withheld unless the Fund receives a properly completed and executed account application.

Shares purchased by wire will be purchased at the NAV (plus any applicable sales charge) next determined after the transfer agent receives your wired funds and all required information is provided in the wire instructions. If the wire is not received by 4:00 p.m. Eastern time, the purchase will be effective at the NAV next calculated after receipt of the wire.

Tax-Deferred Plans

If you are eligible, you may set up one or more tax-deferred accounts. A tax-deferred account allows you to shelter your investment income and capital gains from current income taxes. A contribution to certain of these plans may also be tax deductible. Tax-deferred accounts include retirement plans described below. Distributions from these plans are generally subject to an additional tax if withdrawn prior to age 59 1/2 or used for a nonqualifying purpose. Investors should consult their tax adviser or legal counsel before selecting a tax-deferred account.

US Bank N.A., serves as the custodian for the tax-deferred accounts offered by the Fund. You will be charged an annual account maintenance fee of \$8 for each tax-deferred account you have with the Fund. You may pay the fee by check or have it automatically deducted from your account (usually in December). The custodian reserves the right to change the amount of the fee or to waive it in whole or part for certain types of accounts.

Types of Tax-Deferred Accounts

- **Traditional IRA**

An individual retirement account. Your contribution may or may not be deductible depending on your circumstances. Assets can grow tax-deferred and distributions are taxable as income.

- **Roth IRA**

An IRA with non-deductible contributions, tax-free growth of assets, and tax-free distributions for qualified distributions.

- **Spousal IRA**

An IRA funded by a working spouse in the name of a non-earning spouse.

- **SEP-IRA**

An individual retirement account funded by employer contributions. Your assets grow tax-deferred and distributions are taxable as income.

- **Keogh or Profit Sharing Plans**

These plans allow corporations, partnerships and individuals who are self-employed to make tax-deductible contributions for each person covered by the plans.

- **403(b) Plans**

An arrangement that allows employers of charitable or educational organizations to make voluntary salary reduction contributions to a tax-deferred account.

- **401(k) Plans**

Allows employees of corporations of all sizes to contribute a percentage of their wages on a tax-deferred basis. These accounts need to be established by the trustee of the plan.

Automatic Investment Plans

By completing the Automatic Investment Plan section of the account application, you may make automatic monthly or quarterly investments (\$100 minimum per purchase) in the Fund from your bank or savings account. Your initial investment minimum is \$1,000 if you select this option. Shares of the Fund may also be purchased through direct deposit plans offered by certain employers and government agencies. These plans enable a shareholder to have all or a portion of his or her payroll or Social Security checks transferred automatically to purchase shares of the Fund.

FOR INVESTING

Automatic Investment Plan

For making automatic investments from a designated bank account.

Payroll Direct Deposit Plan

For making automatic investments from your payroll check.

Dividend Reinvestment

All income dividends and capital gains distributions will be automatically reinvested in shares of the Fund unless you indicate otherwise on the account application or in writing.

Instructions For Selling Fund Shares

You may sell all or part of your shares on any day that the New York Stock Exchange is open for trading. Your shares will be sold at the next NAV per share calculated after your order is received in proper form by the transfer agent. The proceeds of your sale may be more or less than the purchase price of your shares, depending on the market value of the Fund's securities at the time of your sale. Your order will be processed promptly and you will generally receive the proceeds within seven days after receiving your properly completed request. The Fund will not mail any proceeds unless your investment check has cleared the bank, which may take up to fifteen calendar days. This procedure is intended to protect the Fund and its shareholders from loss. If the dollar or share amount requested is greater than the current value of your account, your entire account balance will be redeemed. If you choose to redeem your account in full, any automatic services currently in effect for the account will be terminated unless you indicate otherwise in writing.

The Fund typically expects that it will take up to seven days following the receipt of your redemption request to pay out redemption proceeds by check or electronic transfer, except as may be noted above. The Fund typically expects to pay redemptions from cash, cash equivalents, proceeds from the sale of Fund shares, and then from the sale of portfolio securities. These redemption payment methods will be used in regular and stressed market conditions.

TO SELL SHARES

By Mail

Write a letter of instruction that includes:

- The names(s) and signature(s) of all account owners.
- Your account number.
- The dollar or share amount you want to sell.
- Where to send the proceeds.
- If redeeming from your IRA, please note applicable withholding requirements.
- Obtain a signature guarantee or other documentation, if required.

Mail your request to:

Neiman Tactical Income Fund
c/o Mutual Shareholder Services
8000 Town Centre Drive, Suite 400
Broadview Heights, Ohio 44147

By overnight courier, send to:

Neiman Tactical Income Fund
c/o Mutual Shareholder Services
8000 Town Centre Drive, Suite 400
Broadview Heights, Ohio 44147

By Telephone

- You will automatically be granted telephone redemption privileges unless you decline them in writing or indicate on the appropriate section of the account application that you decline this option. Otherwise, you may redeem Fund shares by calling 1-877-385-2720. Redemption proceeds will only be mailed to your address of record.
- You may only redeem a maximum of \$25,000 per day by telephone.
- You will not be able to redeem by telephone and have a check sent to your address of record for a period of 15 days following an address change.
- Unless you decline telephone privileges in writing or on your account application, as long as the Fund takes reasonable measures to verify the order, you may be responsible for any fraudulent telephone order.

For specific information on how to redeem your account, and to determine if a signature guarantee or other documentation is required, please call toll-free in the U.S. 1-877-385-2720.

Additional Redemption Information

Signature Guarantees

Signature guarantees are designed to protect both you and the Fund from fraud. A signature guarantee of each owner is required to redeem shares in the following situations:

- If you change ownership on your account.
- If a change of address request has been received by the transfer agent within the last 15 days.
- If you wish to redeem \$25,000 or more from any shareholder account.

Signature guarantees can be obtained from most banks, savings and loan associations, trust companies, credit unions, broker/dealers, and member firms of a national securities exchange. Call your financial institution to see if they have the ability to guarantee a signature. **A notary public cannot provide signature guarantees.**

The Fund reserves the right to require a signature guarantee under other circumstances or to delay a redemption when permitted by Federal Law. For more information pertaining to signature guarantees, please call 1-877-385-2720.

Corporate, Trust and Other Accounts

Redemption requests from corporate, trusts, and other accounts may require documents in addition to those described above, evidencing the authority of the officers, trustees or others. In order to avoid delays in processing redemption requests for these accounts, you should call the transfer agent at 1-877-385-2720 to determine what additional documents are required.

Address Changes

To change the address on your account, call the transfer agent at 1-877-385-2720 or send a written request signed by all account owners. Include the account number(s) and name(s) on the account and both the old and new addresses. Certain options may be suspended for a period of 15 days following an address change.

Transfer of Ownership

In order to change the account registration or transfer ownership of an account, additional documents will be required. In order to avoid delays in processing these requests, you should call the transfer agent at 1-877-385-2720 to determine what additional documents are required.

Redemption Initiated by the Fund

Because there are certain fixed costs involved with maintaining your account, the Fund may require you to redeem all of your shares if your account balance falls below \$500. After your account balance falls below the minimum balance, you will receive a notification from the Fund indicating its intent to close your account along with instructions on how to increase the value of your account to the minimum amount within 60 days. If your account balance is still below \$500 after 60 days, the Fund may close your account and send you the proceeds. This minimum balance requirement does not apply to accounts using automatic investment plans, to IRAs, and to other tax-sheltered investment accounts. The right of redemption by the Fund will not apply if the value of your account balance falls below \$500 because of market performance. All shares of the Fund are also subject to involuntary redemption if the Board of Trustees determines to liquidate the Fund. Any involuntary redemption will create a capital gain or loss, which may have tax consequences about which you should consult your tax adviser.

Shareholder Communications

Account Statements

Every quarter, shareholders of the Fund will automatically receive regular account statements. You will also be sent a yearly statement detailing the tax characteristics of any dividends and distributions you have received.

Confirmations

Confirmation statements will be sent after each transaction that affects your account balance or account registration.

Regulatory Mailings

Financial reports will be sent at least semiannually. Annual reports will include audited financial statements. To reduce expenses, one copy of each report will be mailed to each taxpayer identification number even though the investor may have more than one account in the Fund.

Dividends and Distributions

The Fund intends to pay distributions on an annual basis and expects that distributions will consist primarily of capital gains. You may elect to reinvest income dividends and capital gain distributions in the form of additional shares of the Fund or receive these distributions in cash. Dividends and distributions from the Fund are automatically reinvested in the Fund, unless you elect to have dividends paid in cash. Reinvested dividends and distributions receive the same tax treatment as those paid in cash. If you are interested in changing your election, you may call the transfer agent at 1-877-385-2720 or send a written notification to:

Neiman Tactical Income Fund
c/o Mutual Shareholder Services
8000 Town Centre Drive, Suite 400
Broadview Heights, Ohio 44147

Market Timing

The Fund discourages market timing. Market timing is an investment strategy using frequent purchases, redemptions and/or exchanges in an attempt to profit from short term market movements. Market timing may result in dilution of the value of Fund shares held by long term shareholders, dis-

rupt portfolio management and increase Fund expenses for all shareholders. The Board of Trustees has adopted a policy directing the Fund to reject any purchase order with respect to one investor, a related group of investors or their agent(s), where it detects a pattern of purchases and sales of the Fund that indicates market timing or trading that it determines is abusive. This policy generally applies to all Fund shareholders. While the Fund attempts to deter market timing, there is no assurance that it will be able to identify and eliminate all market timers. For example, certain accounts called "omnibus accounts" include multiple shareholders. Omnibus accounts typically provide the Fund with a net purchase or redemption request on any given day where purchasers of Fund shares and redeemers of Fund shares are netted against one another and the identity of individual purchasers and redeemers whose orders are aggregated are not known by the Fund. The netting effect often makes it more difficult for the Fund to detect market timing, and there can be no assurance that the Fund will be able to do so.

Cybersecurity Risk

The computer systems, networks and devices used by the Fund and its service providers to carry out routine business operations employ a variety of protections designed to prevent damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorized persons and security breaches. Despite the various protections utilized by the Fund and its service providers, systems, networks, or devices potentially can be breached. The Fund and its shareholders could be negatively impacted as a result of a cybersecurity breach.

Cybersecurity breaches can include unauthorized access to systems, networks, or devices; infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. Cybersecurity breaches may cause disruptions and impact the Fund's business operations, potentially resulting in financial losses; interference with the Fund's ability to calculate its NAV; impediments to trading; the inability of the Fund, the Adviser, and other service providers to transact business; violations of applicable privacy and other laws; regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs; as well as the inadvertent release of confidential information.

Similar adverse consequences could result from cybersecurity breaches affecting issuers of securities in which the Fund invests; counterparties with which the Fund engages in transactions; governmental and other regulatory authorities; exchange and other financial market operators, banks, brokers, dealers, insurance companies, and other financial institutions (including financial intermediaries and service providers for the Fund's shareholders); and other parties. In addition, substantial costs may be incurred by these entities in order to prevent any cybersecurity breaches in the future.

Taxes

Fund dividends and distributions are taxable to most investors (unless your investment is in an IRA or other tax-advantaged account). Dividends paid by the Fund out of net ordinary income and distributions of net short-term capital gains are taxable to the shareholders as ordinary income.

Distributions by the Fund of net long-term capital gains to shareholders are generally taxable to the shareholders at the applicable long-term capital gains rate, regardless of how long the shareholder has held shares of the Fund.

Redemptions of shares of the Fund are taxable events which you may realize as a gain or loss. The amount of the gain or loss and the rate of tax will depend mainly upon the amount paid for the shares, the amount received from the sale, and how long the shares were held.

The Fund's distributions may be subject to federal income tax whether received in cash or reinvested in additional shares. In addition to federal taxes, you may be subject to state and local taxes on distributions.

For taxable years beginning after December 31, 2012, an additional 3.8% Medicare tax may be imposed on distributions you receive from the Fund and on gains from selling, redeeming or exchanging your shares.

Because everyone's tax situation is unique, always consult your tax professional about federal, state, and local tax consequences of an investment in the Fund.

PRIVACY POLICY

The following is a description of the Fund's policies regarding disclosure of nonpublic personal information that you provide to the Fund or that the Fund collects from other sources. In the event that you hold shares of the Fund through a broker-dealer or other financial intermediary, the privacy policy of your financial intermediary would govern how your nonpublic personal information would be shared with unaffiliated third parties.

Categories of Information the Fund Collects. The Fund collects the following non-public personal information about you:

- Information the Fund receives from you on or in applications or other forms, correspondence, or conversations (such as your name, address, phone number, social security number, assets, income and date of birth); and
- Information about your transactions with the Fund, its affiliates, or others (such as your account number and balance, payment history, parties to transactions, cost basis information, and other financial information).

Categories of Information the Fund Discloses. The Fund does not disclose any non-public personal information about their current or former shareholders to unaffiliated third parties, except as required or permitted by law. The Fund is permitted by law to disclose all of the information it collects, as described above, to their service providers (such as the Fund's custodian, administrator and transfer agent) to process your transactions and otherwise provide services to you.

Confidentiality and Security. The Fund restricts access to your nonpublic personal information to those persons who require such information to provide products or services to you. The Fund maintains physical, electronic, and procedural safeguards that comply with federal standards to guard your nonpublic personal information.

Financial Highlights

The financial highlights table is intended to help you understand the Fund's financial performance since inception. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate you would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information has been audited by Cohen & Company, Ltd., the Fund's independent registered public accounting firm, whose report, along with the Fund's financial statements, are included in the Fund's annual report, which is available upon request and incorporated by reference in the Statement of Additional Information.

Financial Highlights - Class A

Selected data for a share outstanding throughout the period:	4/1/2016 to 3/31/2017	4/1/2015 to 3/31/2016	4/1/2014 to 3/31/2015	4/1/2013 to 3/31/2014	6/29/2012* to 3/31/2013
Net Asset Value -					
Beginning of Period	\$ 9.04	\$ 9.68	\$ 10.03	\$ 10.45	\$ 10.00

Portfolio Turnover Rate	44.53%	268.57%	183.94%	225.73%	364.88% **

* The Fund and Class A commenced operations on June 29, 2012.

** Not Annualized.

*** Annualized.

(a) Based on Average Shares Outstanding.

(b) Realized and unrealized gains and losses per share in this caption are balancing amounts necessary to reconcile the change in net asset value for the period, and may not reconcile with the aggregate gains and losses in the Statement of Operations due to share transactions for the period.

(c) Total return in the above table represents the rate that the investor would have earned or lost on an investment in the Fund assuming reinvestment of dividends.

(d) These ratios exclude the impact of expenses of the underlying security holdings listed in the Schedule of Investments.

(e) Recognition of net investment income by the Fund is affected by the timing of the declaration of dividends by the underlying investment companies in which the Fund invests.
